🕒 Updated 2 Sep 2024

Visit the UK's only art fair representing women artists, and those identifying as women, during the most important month in the country's art calendar - Frieze Week.

Visitors will be able to view works by 70 artists, selected from an Open Call, alongside galleries promoting the work of female artists and a spotlight curated space of new work by award-winning emerging and established artists. A high profile talks programme will run during the fair, free to those attending.
